POLITICAL CONVENTIONS.

THE INEVITABLE CON- FLICT.

WHITE PEOPLE AND NEGROES FIGHTING.

All Quiet in Brooklyn.

EASTERN.

Democrats in Council.

PITTSBURG (Pa.), August 26.—The Democratic State Convention assembled here at 11 o'clock this morning. A temporary Chairman and the usual committees were appointed. The Convention adjourned until 4 P. M. Indications are that it will not adjourn before to-morrow.

SPRINGFIELD, August 26.—The Democratic State Convention met here at noon to-day, formed a temporary organization, and adjourned until 2 P. M. The principal point in the Convention will be a financial plank, with a prospect that hard money will carry it.

To be Repaired.

NEW YORK, August 26.—Notices is given by the Lighthouse Board that on October 1st the fog signal at Point Bonito, Cal., will be temporarily discontinued for repairs. It will again be in operation about November 1st, 1874.

Commander Fitz Hugh has been ordered to Mare Island as service aid to the Commandant.

Council Appointed.

WASHINGTON, August 26.—The President has appointed James Scott, of Ohio, Consul for Honolulu.

Negro Riot.

NASHVILLE, August 25.—The negroes of Pickettville, six miles from Humboldt, last Saturday and Sunday, committed a riot and a number of negroes were wounded, some of them mortally, and manifested a disposition to kill two or three citizens and fire and sack the town. Yesterday sixteen ring leaders were arrested and taken to Trenton and placed in jail for safe keeping. At 1 o'clock this morning between seventy-five and one hundred masked men entered the town, rode to the jail and demanded and compelled the delivery of the keys. They then took sixteen negroes from the jail. Two were killed and two mortally wounded at the edge of town. They then rode off with the others, and it is supposed killed them. Nothing has been heard from them since. There is considerable excitement among the negroes, and the whites are taking defensive steps, in case of an outbreak.

A New Steamer.

OFF SANDY HOOK, August 26.—The Pacific Mail Company's steamer City of Pekin, left the anchorage at 9:30 this morning on an excursion outside of Long Island to Newport, R. I., in celebration of her completion and dedication. About 300 guests availed themselves of the invitation to participate, among whom are U. S. Grant, President of the United States, Secretary of War Belknap, Postmaster-General Jewell and C. F. Conant, Assistant Secretary of the Treasury.

Michigan Republicans.

CHICAGO, August 27.—The Republican State Convention of Michigan met at Lansing yesterday. J. J. Bagley was nominated for Governor and H. Holt for Lieutenant-Governor.

The Kansas Republican Convention met at Topeka. No nominations have yet been made. In each strong resolutions were adopted endorsing the Republican policy and administration.

Ohio Democrats.

NEW YORK, August 27.—The Ohio Democratic Convention met at Columbus and nominated Wm. Bell for Secretary of State and M. G. Gilmore Judge of the Supreme Court.

More Democrats.

CHICAGO, August 27.—The Illinois Democratic Convention met to-day at Springfield. Strong resolutions were adopted. Chas. Carroll was nominated for State Treasurer.

White and Black.

NEW YORK, August 27.—The reign of terror continues in Gibson county, Tennessee, on account of the conflicts between the blacks and whites. Armed men are pouring into the town of Trenton, but as yet there has been no fighting.

FOREIGN NEWS.

European Wheat Crop.

LONDON, August 25.—The *Mark Lane Express* of to-day says: "The bulk of the wheat crop is now safe. Another fine week, and the fields will be clear. The damp condition of sale samples shows we had a narrow escape. The price is now receding, because it is believed the crop is fully up to the average. Prices are very low in France, and English wheat is still being reshipped from there."

CITY AND COUNTY OFFICIAL PAPER.
FRIDAY.....AUGUST 28, 1874.

The Carpet-Bagger—His Work.

It is not true that the acts of violence constantly recurring at the South are due entirely to the ignorance and brutality of the negro. It is true that were he more intelligent and more humane it would be more difficult to impose on his understanding and arouse him to deeds of violence, but he is not acting on his own promptings and obeying his own instincts when he asserts his right to marry a white woman against the wishes of her parents and proclaims his resolve to maintain that right by force, if denied by the lady's family. He is simply reiterating what he has been taught by the class of individuals who have to a very great extent controlled the affairs of nearly every Southern State since the close of the war, called "carpet-baggers." These adventurers have educated the negro to hate their old masters, and the result is that those white men who would stand the friend and adviser of the ignorant colored man, are made to appear as his worst enemy. The behest of the right of suffrage on the negro was placing in his hands a weapon he was more likely to use for offensive than defensive purposes, but the influence of the carpet-bagger has reduced the possibility to a certainty, and there is much argument to be adduced in support of the assumption that the negro's chance for becoming an intelligent and useful citizen at some period in the far-off future would have been enhanced had the ballot failed to reach him during the first hundred years or so succeeding his emancipation. Without the ballot, he would have suffered abuses and grievous wrongs, but he would never have maltreated himself as he is now doing. He would have been the victim of their persecution, but not the dupe of these most unprincipled of men. His rights would have been fewer, but they would have been maintained without recourse to arms, and the conflict of races which he now seems determined to bring about would not have transpired. So far, the ballot has not done a great deal for the negro beyond making him the tool of the carpet-bagger to the extent of using his power against himself and his friends.

WE ALMOST despair of ever leading the *Express* into the path of duty. It is stiff-necked and obstinate. It is narrow-minded and "narrow between the eyes." We should be ever so well pleased to have that paper assist us in the task of placing our municipal locomotive on the track of progress, but we are afraid we cannot depend on it. It could not direct and control the present City Council, and it therefore feels called upon to denounce each member of that body as a slow coach, compared with which an ox cart or the *Express* is a lightning train. We regret this, and we hope to record a change in its sentiments before many days. There are some progressive men in the Council. One member, Mr. BEAUDRY, is doing more to advance the interests of this city in one day than many richer men will do in the next decade.

THE manner in which the public mind has received and considered the BEECHER-TILTON scandal is so peculiar—so unlike the usual reception accorded to stained pictures or immodest narratives—that a little careful study of the domestic panorama will, perhaps, repay the trouble. Gilt-edged vice is attractive. The scarlet woman's hideousness decreases with the richness and elegance of her robe. The glamour of wealth and position so mystifies and clouds the modern mind, that rustic virtue fades to insignificance when ranged by the side of the city indiscretion. The position of Brooklyn's celebrities softens, almost palliates, the memory of an offense which would have hurled JACK and GILL to infamy's depths and turned heavenward the noses of a grand enterprise.

Mining in Southern California.

Since our last article on this subject we have examined the various authorities on asbestos, and find it to be one of the most valuable minerals known and, like everything of great value, very scarce. It is susceptible of being worked into the finest fabrics; at the same time, it is fire-proof. If a sufficient quantity can be obtained, the United States Government will issue the entire paper currency of the country upon paper made of asbestos, as well as all documents of great value. The grosser qualities of asbestos are now being used for Winter fires. A few sticks of it placed upon grates with a small jet of gas applied to it—we mean one burner of the common city gas—will burn perpetually. One fire of this will last a life-time, and if you were not told to the contrary, you call it a good old-fashioned hickory log fire. Such fires are now being introduced into all the aristocratic dwellings of the East. This creates a demand for the article at a price that will make the owners of the recent discovery we mentioned very wealthy. Success to our friends; they are good men and deserve it. But we must not omit to speak of our oil interest—the grandest discovery on the Pacific slope. We have conversed with the merchants in San Francisco who deal in kerosene oil. One firm alone shipped to China and Japan last year seven hundred and fifty thousand dollars worth of oil. This is the trade of one house to only two places. When we consider the number of men or firms dealing in this article, and that they have half the globe to deal with, we can hardly make an estimate of the value of this trade. It is true, Pennsylvania is now furnishing an ample supply of oil for all this trade; but in estimating the value of petroleum on the Pacific coast we must take into account the enormous freight on kerosene oil. It bears a higher freight than anything known, except powder and nitro-glycerine. Our merchants tell us that the cost from San Francisco to Los Angeles is about ten cents per gallon. With this protection in our favor, the amount of oil that can now be gathered from our flowing springs is an independent fortune. Our oil companies are at work with commendable zeal. They are boring on one claim, and are down nearly two hundred feet, with a prospect of a flowing well at a depth of three hundred feet. Other companies are being formed, and in a few days we expect to be able to announce that there are two other wells going down. This is right, if one fails another will strike it. The oil has been tested, and all of it can be made into the best quality of illuminating fluid, and some of it is very good lubricating oil in its crude state. CARRERS and CHILDS have just returned from Lyon's Station, and they have determined to use the present refining buildings to refine oil on the CARRERS process, as it can be changed at a very small cost to the Company. That there is a very large supply of petroleum in the San Fernando district is known to all oil experts who have seen and examined. That it should have remained so long in its present undeveloped state, is a matter of wonder to all the strangers who have visited it. We are glad to have these men of judgment, criticise our business men as they do; it stirs them up and gives an impetus to a grand enterprise.

Thanks and Good-Bye.

EDITORS HERALD: For the efficient aid of the HERALD in carrying forward the *Illustrated Press* enterprise in this city and county, I now make my most hearty acknowledgments. The comprehensive appreciation and quick sympathy of a journal conducted with the vigor and ability of the HERALD, not only greatly cheered me in a most laborious and vexatious undertaking, but also greatly aided me in bringing the enterprise up to such completed and commanding success. It will afford me much pleasure to reciprocate your good will on all occasions.

The citizens of this city and county are now to complete the task of raising funds for the most ample presentation of the resources and developments of this county and city, both in the stereopticon and the engravings for the *Press*. The committee in charge of this matter will at once give citizens an opportunity to lend their aid.

Mr. Simon Stoll has been appointed general agent for the *Press* in this city and county. Mr. W. J. Brodrick proprietor of the book store near the Postoffice, will also receive subscriptions and transmit the sums due from them who have given me their names.

At four o'clock to-day I start for home by rail and steamer when I shall remain but a few days and then go on to the East and Europe. It affords me not a little pleasure to know that nearly all the people of Southern California and many leading spirits in San Francisco will rejoice in my mission abroad.

Gratefully yours,
J. A. JOHNSON.
Pico House, August 27th, 1874.

San Francisco Ahead.

Adolph Streckner, a San Francisco rifleman, has carried off the first honors at the great National Shooting Festival at Baltimore. Streckner made 457 bull's eyes, leaving him 172 ahead of any of the other marksmen. He also made 62 out of 80 in the ring shooting, and won the third place. Streckner is only about twenty-one years of age, and is a member of the Schutzen-Verein and National Rifle Clubs of this city, and is reckoned the crack shot of both. He is of pallid complexion, tall stature, and very cool when he takes a rifle in his hand. At 150 yards he has scored as high as 100 bull's eyes out of 20, and has made a string of 214 in 20 shots. He is a barber by trade, and owns a shop of his own on Post street. The most interesting in target shooting, intend giving him a reception on his return to San Francisco.

Fatal Shooting Affray at Hollister.

HOLLISTER, August 25.—About 10 o'clock this morning a man named Tod Robinson, a well-known sport, went to the saloon of John Hough, in this place, where he met one Gavin, alias Tony Harris, a blacksmith. A few words passed between them, when Harris said: "This thing had as well be settled now as any time," when both parties drew their pistols at the same time and commenced firing. Tony Harris shot Robinson through the breast just below the neck, and then drew his diringer at him. The ball from Robinson's pistol passed through Hough's left side, through the naval. Harris backed into the billiard room and dodged behind one of the tables. Robinson followed, and when about half way across the room, fired one more shot, which took effect in Harris' hand, and then fell dead. Harris is living in a critical condition, but may recover. An old grudge is the cause of the present difficulty.

SCANDAL SICK.
"Give us a rest," the reader cried,
His newspaper pestering us,
So much have all those fellows lied
It's ceased to be amusing.

Has all the world caught this to do
But read this belle alliance?
This record of a godly crew,
With loves change to defiance?

If the laws of friendship, and not
Not he alone, for man's sake,
Has loved, and loves impurely.

Suppose, to end this vile hoo-hoo,
We make a peace between us,
To send them all to Timbuctoo
To watch the sun and Venus.

A Thieving Mail Clerk.

NEW YORK, August 24.—A special from Baltimore to the *Times* says: G.

W. Claypole, clerk in the Postoffice,

was arrested on Saturday night.

He is charged with stealing letters and

values from the mails.

The pilfering has been going on eight months.

He was not previously suspected because he was employed in the newspaper department.

He confesses his guilt, and has surrendered a package of fifty letters and a splendid pearl necklace and cross, made from New York, which he substituted his recent spoil. He was detected through decay letters.

Over one hundred rifled letters were found in another coat be-

longing to Claypole.

NEW TO-DAY.

Self Praise is no Recommendation,

But where every body says that I keep the best Cigars in the city, then I must believe it also.

Any one not yet convinced of the fact should come at once to purchase Cigars at

Los Angeles Herald.

CITY AND COUNTY OFFICIAL PAPER.

FRIDAY.....AUGUST 28, 1874.

POSTAL CHANGES.

The following postal changes went into operation, July 1st, 1874: All publications are free of postage to subscribers in the county in which they are printed, and to agents of packages of merchandise, to the weight of four pounds, can be sent by mail at the rate of one cent per pound, and are free of postage. Tied packages may be entirely enclosed. Some portion of sealed packages must be opened for inspection.

LOCAL BREVIETIES.

The Ventura will sail for San Diego to-morrow.

The Orizaba sailed for San Francisco yesterday.

The schooner Phil. Sheridan, Captain Brown, sailed for Humboldt yesterday morning.

The bark Emma Augusta sailed from Wilmington yesterday for Port Discovery.

Volney E. Howard, the District Attorney, left by the Orizaba yesterday for a short business trip to San Francisco.

A gentleman or family either in the city or country wanting a good housekeeper will do well to address Mrs. Wintwirth, through the postoffice.

The Spadra train brought in yesterday thirty-six bales of wool, three pipes of wine and twenty cases of honey, from Phillips & Caldwell of Spadra.

The new lyceum will meet at Prof. Lawlor's Institute this evening. All who are interested in literary matters are invited to be present. There will be "a feast of reason and a flow of soul," enjoyable for all who choose to be present.

We learn that the pleasure-seekers at Santa Monica are growing smaller by degrees and beautifully less nowadays. The chilly nights and mornings on the beach constitutes one of the chief inducements for their leaving. *Sic transit.*

Mr. Simon Levy, No. 34 Aliso street, has twelve fine thoroughbred merino rams, brought from Addison county, Vermont, which he will dispose of to purchasers applying at once. A rare opportunity is here offered to sheep-ras.

The assessments against property owners for the construction of the Main street sewer were yesterday reported to the Council by the City Surveyor and received the municipal endorsement. The names and assessments will be found in our report of the Council proceedings.

Mr. Bancroft has purchased the interest of Mr. Kimball in the real estate, insurance and brokerage business, heretofore conducted under the name of Kimball & Bancroft. Mr. Bancroft will hereafter conduct the business at the old stand, Spring street, two doors north of the HERALD office.

Last Saturday Mr. Stanley completed an artesian well on the San Pedro ranch, recently purchased by Mr. Burlingame from Messrs. Beaudry and Downey. The well is 130 feet deep, and the flow is sufficiently strong to rise in the pipe seven feet above the surface.

Mr. H. Benedict, who came to our city some two months since with Dr. Crawford for a visit yesterday took his departure for the East, and will soon return with his family to settle in Los Angeles. Mr. Benedict is a gentleman of wealth and enterprise, and he will be gladly welcomed here as a permanent citizen.

A little child, three years old, fell into a zanja on the corner of Los Angeles and First streets yesterday afternoon and came near drowning. Some passers-by found the little one in its perilous situation and rescued it. Dr. Wise was called in and in a short time succeeded in restoring the child to life and consciousness.

We yesterday saw in the furniture store of Herberger & Johannsen on Resaca street, a fine smoking chair manufactured by that firm for one of our wealthy merchants. It is made after a late invention with all of the patent adjustables adapted to the greatest comfort of the occupant. This house has some of the most elegant furniture on hand which is to be found in the city.

The Mutual Aid Association has nearly completed its first year, and is in a more prosperous condition to-day than at any former period. Yesterday J. S. Tam started out on behalf of the Association, with a view to introducing it throughout Southern California. His object is to secure new members and establish local agents. The officers, agents and members are now making a united effort to build up the Association, and their efforts are marked with success. Mr. Tam yesterday went to San Bernardino, and will spend some time in that county.

The time was yesterday morning. John stopped his go-cart near the southern junction of Main and Spring Streets and went into a house to buy some vegetables. The horse thought it a very opportune occasion to have a spin about town and so took his departure sans ceremonies, sans driver. When John came out of the house his rig was a long distance down the road and the animal was making dust, vegetables and all superfluous trappings fly in every direction. This was too much for John's patient nature to stand, and forgetting the Christian training which he had received in this country he exclaimed "Ho! stopee, horse; dam!" The remnants of the runaway equipage were finally brought to a halt by a friendly individual down the road, and John rejoiced and was exceeding glad.

One hundred thousand dollars to loan in sums of five thousand dollars and upward. Enquire at J. Jones Arcadia Block, Los Angeles Street, Aug 25th.

The Colusa and Mendocino Telegraph Company opened an office at Lakeport Saturday. Congratulatory messages were exchanged with all parts of the county. The builders are pushing northward.

Common Council Proceedings.

THURSDAY, August 27th.

Council met at the usual time with President Sabichi in the chair. Present: Dockweiler, Gerken, Huber, Workman, Valdez, Mascarel Sabichi, Beaudry, Chavis and DeCeli.

The minutes of the previous meeting were read and approved. Also, the minutes of special session, held August 21st were adopted.

The Mayor reported the following receipts for the month: Received on Cemetery Fund, \$30; fines, \$172; water permits, \$1,157.

The Zanjero reported water permits issued corresponding with the amount stated in the Mayor's report.

The Board of Public Works presented a report with recommendations as follows:

1st. That further action on the change of grade on Olive street be deferred until the City Surveyor can report on the grade proposed. Adopted.

2d. That the bridge on Mesa street be repaired for the present and the building of a new bridge postponed until the new flume is built. Adopted. Repairs ordered made by the chain-gang.

3d. That the remonstrance of A. Brislawter against removing the culvert on Main street be disregarded, and that the culvert be removed and ground levelled. Mr. Gerken moved that a culvert be built at the place referred to, and also in front of the place of O. W. Childs. Carried.

4th. That Mr. Messmer be granted permission to have an entrance to his cellar on Los Angeles street. Carried.

5th. That the City Surveyor examine upper Main street, and report what is necessary to be done in the way of repairs. Adopted.

6th. The Board also submitted the report of the City Surveyor, giving assessments against property owners along Main street for the expense of building the Main street sewer. The report was embodied in a resolution providing for the execution of the same.

The names of property owners, with number of front feet assessed and the amounts of assessments are as follows:

Assessment.
Mrs. Arcadia B. Stearns, 188 feet.....\$163.00
J. G. Downey, 200 feet.....18.00
M. Riley, 100 ft. W. Perry, 51 ft. 4 in.....18.00
Pio Pico, 35 ft.....30.77

Mr. Gerken moved that a committee of three be appointed to fix the salary of the City Assessor for the present year. Carried.

Messrs. Gerken, Huber and Workman were appointed such committee. Adjourned.

for a deed from the city was presented and being informal was referred back to petitioner.

A notice was served by Messrs. Bellala that the city will be held responsible for earth hauled from their property. Laid on the table.

A petition from F. Johnson was received, praying that the city cause certain garbage near his premises on New Alis street to be removed. On motion, petition was granted and removed.

A petition from Thos. H. Smith was presented, praying for the opening of Forn street from Temple to Franklin. Referred to the Board of Public Works.

A petition from J. E. Jackson, Agent of the L. A. & S. R. R. Co., asking the privilege on the part of the company of grading and keeping in repair streets along which their track runs. On motion, permission was granted petitioner to grade the street in question in accordance with provisions of ordinance.

A petition from J. H. Dickson was received asking the privilege of grading and building his own sidewalk in front of his premises. Granted.

A communication was received from R. M. Widney, on the part of the Spring and Sixth street Railroad, asking that grades be established along the line of said road in accordance with the order of City Surveyor.

A communication was received from Stephen C. Foster referring to a recently discovered volume of the city archives, and offering to bind and index the same for \$10.

Mr. DeCeli stated to the Council in behalf of the Mayor that the present captain of the chain-gang is very derelict in his duty, and frequently allows prisoners to escape without reporting the same. On motion, the subject was referred to the Board of Public Works.

Mr. Beaudry moved that the City Surveyor be instructed to make assessments against property owners on streets which have been ordered graded and improved. Carried.

The Committee on Zanjeros, upon report, was wanted further time to report upon Zanja No. 2.

The following bills were then presented: Dolahan, \$1.50; Harper & Long, \$11; S. F. Chronicle, \$1.50; Gas Co., \$12.75; Geo. P. McLean, \$10; Goodwin & Co., \$5; Borrow, \$59; Bills, \$7; F. Carpenter, \$40; Edw. Seabold, \$1.50; Caswell & Ellis, \$12.20; Jose Mascarel, \$2.50; John Schumaker, \$2; J. G. Scott, \$1.66; Whisler & Co., \$5; Hellman, Haas & Co., \$5; L. A. & S. P. R. R. Co., \$26.28; J. C. Clayton, \$5; HERALD Printing House, \$27.15; Harris & Jacoby, \$3; Page & Gravel, \$19.50; Hellman, Haas & Co., \$26.45; Page & Gravel, \$8.25. On motion, the bills were referred to the Finance Committee.

Mr. Gerken moved that the City Surveyor be instructed to make assessments against property owners on streets which have been ordered graded and improved. Carried.

The Committee on Zanjeros, upon report, was wanted further time to report upon Zanja No. 2.

The following bills were then presented: Dolahan, \$1.50; Harper & Long, \$11; S. F. Chronicle, \$1.50; Gas Co., \$12.75; Geo. P. McLean, \$10; Goodwin & Co., \$5; Borrow, \$59; Bills, \$7; F. Messrs. Gerken, Huber and Workman were appointed such committee. Adjourned.

Lessening Woman's Work.

The *Scientific American* publishes a description, with diagrams, of an apparatus designed to furnish a simple, safe and cheap sewing-machine motor. The power used is clock-work, and may be attached to any machine. The novel parts of the machinery are the appliances for securing a uniform exertion of power during the running down of the clock spring, and for regulating or altogether stopping the running of the machine. These appliances are described in detail, and it is sufficient to state that in winding up the spring a crank is turned which winds a chain first around the largest portion of a spirally grooved drum, and that when the clock-work is set in motion it begins to unwind the chain from the smaller part of the drum. Strong power is thus made to act on short levers. A brake, worked by the foot regulates the rate of speed at which the machinery is run, and a lever terminating in a knob on the top of the table, is arranged so as to stop the machine at the will of the operator. The *Scientific American* states that, in a trial of the apparatus, eight turns of the crank made in the direction of the propeller would turn the machine and set the machine in motion at full speed, estimated at 270 stitches per minute for twenty minutes. It is estimated that the machine would furnish power for continuous work for half an hour. In the trial the needle was driven through many thicknesses of muslin or linen.

Nevada Items.

All of the Silver City mills are running, full blast, on ore from the Comstock and neighboring mines.

The lumbermen and wood-cutters are now very actively engaged everywhere among the timber ranches along the eastern slope of the Sierra Nevada Mountains.

Good progress is being made in the erection of the heavy foundation walls of the large new mills of the Consolidated Virginia Mining Company. The principal walls are about completed, but there is much heavy stone-work yet to be done about the foundation of the batteries and engines.

Reports from the new placer mines in the Bruneau Mountain state that the mines have been greatly over-rated. Two or three Frenchmen have been working in the Bruneau region for about two years, and have made small wages—two or three dollars per day—and this is about as much as anybody can make in any diggings yet found in the country.

A greater amount of prospecting is being done in the western Part of the State this season, says the *Virginia Chronicle*, but is generally supposed.

The Finance Committee reported favorably on bills of the County Clerk amounting to \$205.20. On motion the bills were passed and ordered paid.

A petition from H. Ernest was presented representing that he is the owner of certain property named in petition and requesting that his boundary line be designated by the City Surveyor.

By permission Mr. C. E. Thom addressed the Council, advocating the petition. On motion referred to the Committee on Lands in conjunction with the City Attorney and City Surveyor.

A bid from Messrs. Guy and Wade was received for building the extension main sewer for \$1.75 per running foot. A previous bid from Mr. Mayer for doing the same work was for \$1.55 per running foot. Mr. Beaudry moved that the bid of Messrs. Guy & Wade be rejected. Carried. On motion the Clerk was authorized to advertise for further bids.

A petition from John G. Downey was received praying that New High Street be opened and grade established. Referred to the Board of Public Works.

A petition from J. A. Brown asking
